

Newborn Basics Primecare of Novi

Dr. Robert Zaid • Dr. Theodore Shively

The physicians at PrimeCare of Novi would like to introduce a new lecture series designed to provide first time parents with information regarding newborn care.

We realize that there are many ways to raise a child and no instruction manual that makes it easy. We are offering a class that will occur once a month to help expecting mothers and fathers feel more comfortable in dealing with the challenges that await them. This is a great experience and we would like to be a part of it.

We are offering the following **Newborn Basics** informal lectures.

All lectures will be at Providence Park Hospital
